Get Started with TextExpander

Now that your TextExpander account is ready...

1. <u>Download</u> the app, if you haven't already.
2. **Install** the app, **launch** it, and **sign in** with your new TextExpander account.
   If you are a veteran TextExpander user, your snippets will transfer over to your new account. Once that happens, drag your older TextExpander app to Trash.
3. Start making and using snippets!

All new to TextExpander? Need to see what's new? We have the video tutorial for you.	Find help, tips, tricks, and the resources you need to make TextExpander work for you.
